

K-LOVE radio is the only commercial-free Christian station in this area, and it encourages me everyday to live a more Christian life, as it does lots of people here. Without K-LOVE, there would be no station offering contemporary Christian music which appeals to all ages. I believe that the service provided by K-LOVE is deffinitely in the public interest because the station offers an alternative to other stations which don't emphasize good values, faithful Christian living, and encouragement to all ages. I would much rather have the young people of this area listening to K-LOVE than to any other stations which may be less-than-wholesome.
